

DISTANCE LEARNING

WEEK 2

LET'S LEARN

Watch video on Ms. Trivett's teacher page.

Watch Kahn Academy, Solving ratios with tables.

Watch Math Antics - Proportions

OPTIONAL ASSIGNMENTS

1. Complete IXL lesson R.6 Ratio Tables - Score of 90
2. Complete IXL lesson R.12 Do the ratios form a proportion? Score of 90
3. Complete IXL lesson R.15 Identify proportional relationships from tables. Score of 90

OBJECTIVES/SOL 6.2

1. Understand a ratio table and how to complete one.
2. Understand a proportion is two equivalent ratios.
3. Determine if the ratios in a table are proportional.

IF STUCK- Email your teacher, they are there to help.

- The Kahn academy and mathantics videos are found on youtube.

ACTIVITY

Create a game of proportions. An example could be a matching ratio game such as Memory.

Describe proportions to a family member.

Create your own ratio table using markers and crayons.

Have a great week and stay healthy!!
